NO. 102.

COAST CLIPPINGS.

An Angel Fish, one of the greatest curiosities in the fishy tribe, was caught near the Farallones recently.

A large portion of the apples shipped to Reno by Morgan Williams, of Susanville, were frozen on the road.

Snow fell to the depth of five inches at Grass Valley, Cal., on Thursday, with good prospects for more. At Nevada City at the same time, the snow was over seven inches deep.

It is reported, says the Independent, that Meats, Woodruff and Ennor will start a line of stages and fast freight between Wells and Wood River, as soon as the season for travel is fairly opened.

The Silver State is informed that the antimony ore shipped by Enmons and Young, of Lovelock, from their mine east of that place, contained two hundred dollars in silver to the ton.

A Sheep herder known as "Old Jimmy" perished in the hills south-east of Pizen Switch during the recent storm in Mason valley. A number of sheep which belonged to a man named Prindle were also frozen to death.

The Silver State says that Nicholas Frayer ("Big Nick"), shipped 29,288 pounds of ore from the Live Yankee mine in Paradise, to Salt Lake on Saturday. The ore is very rich, and its owner thinks it will work over \$450 to the ton.

The Lassen Advocate says: Large numbers of cattle have been driven through this section to Reno in the past two weeks. It is reported that there are now some 3,000 head being fed in Surprise valley, which will be driven through before spring.

Among the best class of immigrants who come to this country are the Scandinavians, and President Villard of the Northern Pacific Railroad is displaying much wisdom in arranging to bring over a large body of them to work as laborers. They will become permanent settlers.

Over one hundred thousand cords of wood will be cut at different points around Lake Tahoe this winter. J. A. Rigby, of Lake valley, has a contract for 12,000 cords, and H. E. Casey will get out as much more. Folsom & Marlette will get out between fifty and sixty thousand cords.

William Sherman, of Santa Rosa, got lost in the redwoods in the mountains between Sonoma and Napa valley, the other day, and wandered about for three days without food or shelter, arriving finally at St. Helena in a most dilapidated condition. He is seventy years of age, and suffered severely.

It is rumored that Moses M. Drew, ex-Sheriff of Sacramento county, as present a member of the State Board of Equalization, will receive the appointment from Washington of United States Marshal for California. His appointment will create a vacancy in the Board of Equalization which must be filled by the Governor.

THE SUN.

1882. NEW YORK. 1882.

THE SUN for 1882 will make its fifteenth annual revolution under the present management, shining as always, for all, big and little, mean and gracious, contented and unhappy, Republican and Democratic, deplaved and virtuous, intelligent and obtuse. The Sun's light is for mankind and woman-kind of every sort; but its genial warmth is for the good, while it points out the discomfort on the blistering backs of the persistently wicked.

THE SUN of 1882 was a newspaper of a new kind. It discarded many of the forms, and a multitude of the superfluous words and phrases of ancient journalism. It undertook to report in a fresh, succinct, unconvoluted way, all the news of the world, omitting no event of human interest, and commencing upon affairs with the fearlessness of absolute independence. The success of this experiment was the success of THE SUN. It effected a permanent change in the style of American newspapers. Every important newspaper established in this country in the dozen years past has been modeled after THE SUN. Every important journal already existing has been modified and bettered by the force of THE SUN's example.

THE SUN of 1882 will be the same outspoken, truth-telling and interesting newspaper. By a liberal use of the means which an abundant prosperity affords, we shall make it better than ever before.

We shall print all the news, putting it into readable shape, and measuring its importance, not by the traditional yardstick, but by its real interest to the people. Distance from Printing House Square is not the first consideration with THE SUN. Whenever anything happens worth reporting we get the particulars, whether it happens in Brooklyn or Bohemia.

In politics we have decided opinions; and are accustomed to express them in language that can be understood. We say what we think about men and events. That habit is the only secret of THE SUN's political course.

THE WEEKLY SUN contains in eight pages the best matter of the seven daily issues. An Agricultural Department of unequalled merit, full market reports, and a liberal proportion of literary, scientific and domestic intelligence complete the WEEKLY SUN, and make it the best newspaper for the farmer's household that was ever printed.

Who does not know and read and like THE SUN? Each number of which is a goldmine of interesting literature, with the best poetry of the day, prose every line worth reading, news, humor—matter enough to fill a good-sized book, and infinitely more varied and entertaining than any book, big or little!

If our list of what a newspaper should be pleases you, send for THE SUN.

Our terms are as follows:
For the daily Sun, four-page sheet of twenty-eight columns, the price by mail, post-paid, is 35 cents a month, or \$3.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents per month, or \$7.70 a year, postage paid.

The price of THE WEEKLY SUN, eight pages, fifty-six columns, is \$1 a year, postage paid. For clubs of ten sending \$10 we will send an extra copy free.

THE RENO GAZETTE

For 1882 will be a better paper than it has ever been before. It now gets all the latest press dispatches, and is thus placed many hours ahead of any other paper. It has always been the policy of the proprietor to make the GAZETTE a first-class local paper, with full accounts of everything that occurs in Reno, or Washoe county, or the State of Nevada. The resources of the country are carefully studied and written up by able correspondents, and the GAZETTE has done as much as all the other papers combined in this respect.

THE WEEKLY GAZETTE
contains all the reading matter of the Daily, without its advertisements. It is an eight-page paper, with good, plain letters and clean, white paper. It has increased in an extraordinary manner in the last six months, and is now growing rapidly. Its interesting matter, crisp editorials and late news make its popularity. By availing themselves of our club rates, the WEEKLY GAZETTE costs only half a dollar a year. It is given with the Bulletin, Chronicle, Examiner or Record Union, which cost alone two dollars and fifty cents, for three dollars; with Harper's publications and the Argonaut for four dollars and fifty cents a year, and with other papers in proportion. BLAINE'S SIDE OF IT.

Blaine has been interviewed, and objects to being made a scapegoat. He says he showed every dispatch to the President up to the time he was shot, then sent none until Arthur was inaugurated, and since then has shown everything to him. He says Arthur, like every one else, has a right to change his mind. He says the demand of Chili is equal to the destruction of Peru. It takes from her the great guano and nitre beds, and thus deprives her of her source of income. This is a greater loss to her than the seceding of the Southern States was to us. Chili now wants to mediate only on condition of permitting this wholesale destruction of a friendly republic. He fears that the change of policy will be the utter destruction of our commercial interests on the south Pacific coast.

WHO IS HE?

Last Saturday's Carson Appeal says:

"A gentleman from Reno yesterday informed the Appeal that work on the Insane Asylum, now being erected there is slighted, and that the contractors are not living up to their agreements. It is suggested that the commissioners look into the matter, and in the event the report is founded on fact, to correct the evil before it is too late."

The commissioners have been continually looking into this matter, and they know the statement is false, and so does everyone else. Let the Appeal give the "gentleman from Reno's" name.

The fire cisterns that are being put in are thought by citizens to be too small. That at the corner of Virginia and Fifth streets is only six feet deep and six in diameter. The one on Second street is seven by nine. Such cisterns would be pumped dry in ten minutes after the engines began to draw on them. A small additional expense would double them. Both are in the center of a lot of wooden houses that would need lots of water if they got started.

Went Down at Sea.

SAN FRANCISCO, January 29.

The British ship Cochin arrived today from Dundee, and brought seven men, who were picked up in an open boat. They belonged to the British ship Milton, bound from Newcastle, England, to San Francisco with a cargo of coal. About 1 o'clock on the 22d of December smoke was discovered coming through the aft hatch, and the crew took to the boats. She was commanded by Captain McArthur (who was accompanied by his wife and two children), and manned by twenty men. The first boat contained Captain McArthur, wife, children and five sailors; the second boat the first officer and seven men; third boat, second officer and five men. After abandoning the vessel the three boats separated; twenty-three days after, the third boat, containing the second officer and five men was picked up by the Cochin. Nothing has since been heard or seen of the other two boats. Those picked up reported having experienced great hardships from thirst and hunger, and were too weak to stand alone when rescued. They had lived five days on only a few dry biscuits, and for three days before being picked up had drank nothing but salt water and kerosene oil.

TELEGRAPHIC BRIEVITIES.

—At one o'clock this morning Rev. Dr. Bellows was sinking rapidly, and it was feared by his attendants that he would not live the night through.

—The Herald thinks Blaine's explanation will strike the country that he was entirely too enterprising, either for his own reputation as a statesman, or for the good of the country.

—In an article in the International Reviewer J. R. McBride, formerly Chief Justice of Arizona, dissipates the delusion that the Salt Lake Valley, was transformed from a desert into a fertile country by the Mormons.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN.

Holding Back the Dogs of War.

CHICAGO, January 30.

There is still much concern felt by the President and Secretary of State over the immediate result of Treseott's action in South America. Up to yesterday no replies were received from him acknowledging the receipt of two telegrams sent January 3 and 4, which were dispatched by the way of Europe, and which were designed to show him that a complete change of policy had been adopted by the President. These telegrams were sent as most urgent matter, and every precaution taken to insure their prompt forwarding. The days succeeding the sending of these telegrams were days of grave anxiety. At the end of the fourth no reply having been received, the Secretary of State sought a personal interview with the Chilean Minister here to impress upon him in an informal talk that the President had no policy in regard to the pending troubles between Chili and Peru beyond a desire to exercise the good offices of the United States impartially and in the most friendly spirit towards both nations, and solely for the purpose of bringing about peace. Both the President and the Secretary of State, after carefully examining the instructions to Treseott, expressed the belief that if they were executed in the temper in which they were written, we were on the threshold of war with Chili. They further believed that only by prompt and decided action could trouble be averted. Frank conference with the Chilean Minister was for the purpose of adding greater certainty to the desired avoidance of the first stage of trouble. The anxiety now is lest Treseott, before he receives the new instructions sent him, may have taken the first instructions, which will be an open rupture of diplomatic relations. The serious results of such a misfortune have been in some degree escaped, it is believed, by the wide publication of the real motives of this Government, and by the purposes as shown in recent instructions, and by the conference with the Chilean Minister, at which a good understanding was reached. The President would in any event have made known his change in policy, but it was felt that it should be much less embarrassing to announce it before trouble had fairly arisen, and become publicly known. It is not yet certain that difficulties have not already arisen as those portions of Treseott's last dispatch not fully deciphered, are of a character to create great uneasiness, and there will be great relief here when it becomes officially known that Treseott has received, and begun to act under his new directions.

A Too Smart Clerk.

WASHINGTON, January 30.

The Republican on Friday last, says the name of William Nicholas was sent to the Senate as postmaster at Norfolk, Virginia. This nomination of Nicholas was not an intentional act of the President, nor was it known to the Postmaster-General or first assistant. The President's attention being called to it he was greatly surprised, the nomination having been unwittingly signed by him with many others. The Postmaster-General and his assistant found that a clerk in the department had prepared the nomination without any authority, and handed it in with others he had been directed to make out. The President at once directed the withdrawal of the nomination; not because he had changed his mind, but because it was not his act. It was either a very sharp, or very dull clerk. An investigation is to be held.

The Mormon Monsters.

WASHINGTON, January 30.

The bill prepared by the Judiciary Committee of the Senate for the suppression of polygamy, which will be vigorously pushed to a vote, provides that no polygamist shall sit on juries, exercise the right of suffrage or hold office. Cohabitation with more than one woman will be accepted as proof of polygamous marriage. Another section provides for the registration of election by the President.

He Don't Wash.

CHICAGO, January 30.

A Times' special says: President Arthur pleases no one, though he has excited no great hostility except from

Blaine. Perhaps the Senatorial influence counts for little at present, and Senators sharply criticize the man who went to Albany less than a year ago in behalf of the Senatorial prerogative, and now ignores it. He is criticized for his late rising, and it is remarked that Congress sometimes meets and adjourns before he has breakfast. That business is greatly delayed by his sloth. Some of his personal appointments will bring on a fight. Extreme stalwarts accuse him of intriguing for his own re-election. He won't succeed. However valuable as an ally he has never been regarded as a leader. He has alienated himself from old friends and is making no new ones.

Want More Talk.

WASHINGTON, January 30.

In the Criminal Court Corbhill applied to the Court to fix a day for hearing the arguments upon a motion for a new trial. He was willing to-morrow should be assigned. Scoville said that during the trial the Critic had been read by, or to, the jury. A copy bore on its margin what purported to be the signature of four jurors. The jurors deny that they saw any newspapers or put their names upon any newspaper. This raises an issue of fact. The jury admitted that during the time they were empaneled they gave their autographs to various persons, and he thought it might be important that he should have an opportunity to cross-examine the men. The full names of two or three of the jurors were on the paper, and one of them spelled wrong. Scoville asked that the jurors be produced in court and he be allowed to produce further testimony as to the genuineness of the handwriting. The Court therefore fixed Friday for the argument.

The District Attorney said he did not intend to have the jury put on trial. This newspaper was suspicious on its face. The gentleman who had filed the affidavit, and who had purloined the paper, had already been bound over for forgery in the District. He would show the Court that this was a clever attempt at forgery.

Railroad Rumors.

NEW YORK, January 30.

It is reported that the Union and Central Pacific Railroad Companies are agreed upon all questions except as to the Union Pacific interests in the Utah Central road and its branches. The Union Pacific owns a three-fourths interest in that line, and the Central Pacific desires to be admitted to a proprietary partnership in the road. The Oregon short line is to be completed this year to the Wood River mines. It is reported that Gould is taking renewed interest in Union Pacific stock, that he has increased his holdings, and that an effort will soon be made to put it to 1.25.

Blaine's Blunders.

NEW YORK, January 30.

It is probable that more correspondence will be called for by Congress at once. It relates to Blaine's interferences in the boundary dispute between Mexico and Guatemala, in which it seems he took as pre-emptory a course at trying to force himself in as arbitrator, as he did in the case of Chili and Peru. The boundary case has been a dispute for more than 50 years. Blaine's notion of encouraging commerce by beating our neighbors over the head with a stick, is original. He appears to have decided that nothing shall go on in North or South America without his permission.

Too Low Rates.

WASHINGTON, January 30.

A leading Republican Senator predicts the failure of Sherman's funding bill, for the reason the rate of interest is too low to be fastened upon the private capital of the country, and that the situation as to the continued bonds is the best possible one. There is a disposition to let the ex-Secretary down easily, out of respect for his services in the Treasury.

A Grand Tumble.

NASHVILLE, Tenn., January 30.

The Tennessee River at Johnsonville has reached the highest point known during the present flood. The town has virtually been destroyed, and the railroad bridge is threatened. East of Knoxville, on Saturday, the highest peak of the Buffalo Mountains, having become undermined by the constant rains, fell from a height of 300 feet, alarming citizens for thirty miles.

Boston Satisfied.

NEW YORK, January 30.

The statement is now made that negotiations by the Atchison people

give general satisfaction. The proposition to save several million dollars of the construction in California, and connect, the Atlantic & Pacific, with the Southern Pacific at Mohave, is favorably received by Boston interests.

Spain Wants Reciprocity.

NEW YORK, January 30.

Several Madrid papers are pressing Senator Sagasta to push forward the diplomatic negotiations in Washington to obtain tariff concessions on the imports not only of Cuba, but of Spain. The latest statistics show that the importations of American goods is steadily increasing in the Spanish dominions. The same papers clamor for a copyright treaty with America.

FOREIGN.

Taking Care of Him.

MOSCOW, January 30.

The scheme of the Governor-General for assuring the safety of the Imperial cortege to Moscow for the coronation ceremonies proposes that the Emperor shall come to Moscow by carriage road instead of by railway, and the crowds in the street shall be separated from the procession by trenches, barriers and lines of troops.

Don't Give Them Up.

ST. PETERSBURG, January 29.

Engineer Melville, of the Arctic steamer Jeannette, has gone to the mouth of the river Lena, to search for De Long. Two Russian officials go with him to organize search parties. Lieutenant Danenhower and party are expected at Irkutsk.

A Thorough Search.

ST. PETERSBURG, January 30.

Melville will form five separate parties to search for Commander DeLong.
